# BrightPath HealthTech - Proposal

Response to RFP MCH-EMR-2026-01 | Submitted 14 September 2026 | Contact: sales@brightpath.example

## 1. Executive summary

BrightPath HealthTech offers the fastest and most cost-effective route to a modern EMR for Meridian Care Hospitals. Our SaaS platform, BrightChart, is simple to configure and can be live in all four hospitals in 6 months. We believe MCH should not pay for features it will not use in the first years.

## 2. Proposed solution and approach

BrightChart is a modular SaaS EMR with registration, clinical notes, orders, e-prescribing and a patient portal. The platform supports HL7 and FHIR and can connect to laboratory and imaging systems. It is hosted on a public cloud region in India and scales to meet demand. Standard templates will be used for most clinical workflows to keep configuration effort low.

## 3. Timeline, team and milestones

We recommend a single go-live at all four hospitals at the end of month 6, supported by a team of 12 people.

| Phase | Period | Milestone / deliverable |
|---|---|---|
| Kick-off and configuration | Month 1-3 | Configured platform |
| Testing and training | Month 4-5 | User acceptance testing, online training |
| Go-live | Month 6 | All hospitals live together |

Risks will be managed through weekly project meetings.

## 4. Price

| Cost component | INR lakh | Basis |
|---|---|---|
| Platform subscription (5 years) | 400 | Flat SaaS fee, includes patient portal |
| Implementation and configuration | 190 | Fixed price, 6-month programme |
| Data migration | 80 | Last 2 years of records only |
| Interfaces | 110 | Includes 3 interfaces (LIS, PACS, pharmacy) |
| Training | 30 | Online sessions and recorded videos |
| Support (5 years) | 310 | Business-hours support, 24x7 for P1 by phone |
| **Total 5-year cost** | **1,120** | **= INR 11.20 crore** |

**Pricing assumptions**

- Prices are in INR lakh, exclusive of GST.
- Each interface beyond the first three is charged at INR 6 lakh.
- ABDM integration is offered as an optional add-on and is not included in the total above.
- Travel, on-site training and migration of records older than 2 years are excluded and charged at actuals.

## 5. Security and compliance

We follow industry best practices for security and encrypt patient data. ISO 27001 certification is in progress and expected in Q1 2027. Data is hosted in India. A detailed compliance mapping and details of access controls and audit logging can be provided on request.

## 6. Support and experience

Support is available from 9 am to 6 pm, Monday to Saturday, with a phone line for critical issues outside these hours. BrightPath has deployed BrightChart at 2 sites: a 60-bed clinic and an 85-bed nursing home, both in

2025. Reference: Greenfield Nursing Home (85 beds).
