Orbit Digital Health - Proposal

Response to RFP MCH-EMR-2026-01 | Submitted 10 September 2026 | Contact: rfp@orbitdigital.example

1. Executive summary

Orbit Digital Health has implemented hospital information systems for 11 years and has completed 22 hospital deployments, more than any other bidder, and we are proud of the satisfaction of our customers. OrbitOne is a proven, mature EMR platform. Our proposal focuses on the confidence that comes from delivering many similar projects.

2. Proposed solution and approach

OrbitOne covers registration, clinical documentation, orders, e-prescribing and a patient portal. The solution will integrate with the Hospital's existing systems using standard interfaces. The detailed interface list and specifications will be finalised during the design phase, and integration effort is included in the price. The platform scales as needed by adding servers and is deployed on Orbit-managed infrastructure in India.

3. Timeline, team and milestones

The implementation will take 10 months following a standard Orbit methodology and will be led by an experienced project manager supported by functional consultants.

Phase	Period	Milestone / deliverable
Planning and design	Month 1-3	Design documents
Configuration and integration	Month 3-7	System ready for testing
Testing and training	Month 7-9	UAT complete, users trained
Go-live and support	Month 10	All hospitals live

4. Price

Cost component	INR lakh	Basis
Platform subscription (5 years)	540	Per-bed licence, 1,200 beds
Implementation and configuration	280	Fixed price, 10-month programme
Data migration	130	5 years of history
Integration	160	Fixed price; all required interfaces included
Training	55	Classroom and on-the-job training
Support (5 years)	355	24x7 helpdesk, regional support centre
Total 5-year cost	**1,520**	**= INR 15.20 crore**

Pricing assumptions

- Prices are in INR lakh, exclusive of GST; valid for 90 days.
- Integration effort is included for the interfaces required by MCH, as finalised during design.
- Annual support escalation of 5% from year 2.
- Excluded: hardware and network upgrades at MCH sites.

5. Security and compliance

Orbit is ISO/IEC 27001 certified. The platform uses encryption for data at rest and in transit, role-based access, and maintains audit logs. Orbit is compliant with applicable Indian data-protection regulations. Patient data is stored in India.

6. Support model, experience and references

Orbit's helpdesk operates 24x7 with a regional support centre in Hyderabad and Delhi. Critical issues are responded to within 30 minutes. A customer satisfaction score of 4.6 out of 5 was recorded in Orbit's 2025 customer survey.

Reference hospital	Beds	Go-live	Scope
Deccan General Hospital	850	2023	EMR, CPOE, portal
Harmony Hospitals (3 sites)	1,100	2024	EMR, LIS and pharmacy interfaces
Eastern Cardiac Centre	300	2022	EMR, cardiology modules
Valley Children's Hospital	250	2025	EMR, paediatric workflows
Metro Multispecialty Hospital	600	2021	EMR, billing
Orchid Women's Hospital	180	2024	EMR, maternity workflows
Northern District Hospital	420	2023	EMR, PACS integration
Sapphire Health City	700	2022	EMR, CPOE
Tri-City Medical Institute	520	2025	EMR, patient portal
